

# 'A' Course for Registered Students

## Query Description:

This query selects registered students who received an 'A' in a particular course for a given semester. Students are selected based on their semester classification, and address is provided.

**>Note:**

If you need to run this query for a **previous semester**, use the tables **student\_sem** and **transcript**.

**Database**  
**Used:** Student

**Table**  
**Used:** enrollment  
  
student\_sem\_curr

### Fields Selected from the *enrollment* table:

numb\_stud\_id  
code\_univ\_yr\_sem  
code\_enrl\_crse\_loc  
code\_cses\_delivery  
code\_crse\_key  
numb\_csec  
code\_enrl\_grade

### Fields Selected from the *student\_sem\_curr* table:

name\_stud\_formal  
addr\_pers\_st1\_loc  
addr\_pers\_st2\_loc  
addr\_pers\_city\_st\_loc  
addr\_pers\_zip\_loc  
addr\_pers\_ctry\_loc

code\_stud\_stat  
code\_stud\_clsfcn\_yrtm  
code\_stud\_majr1

**Criteria  
Used:**

<b>Field Name:</b> code_univ_yr_sem	<b>Criteria Entered:</b> 199797FA
<b>Field Name:</b> code_crse_key	<b>Criteria Entered:</b> ECON 002 *
<b>Field Name:</b> code_enrl_grade	<b>Criteria Entered:</b> A *
<b>Field Name:</b> code_stud_stat	<b>Criteria Entered:</b> REG *
<b>Field Name:</b> code_stud_clsfcn_yrtm	<b>Criteria Entered:</b> <=05

**> Notes:**

- The \* in the Criteria area is a wild card character. It means you are requesting any value beginning with those characters. This wild card character is usually an \* or %. If in doubt, check the documentation of your software package.
- Any questions concerning the data in this query should be directed to the [Registrar's Office](#).
